

## “FINALLY, A STEELHEAD!” 12/8/15

Brad with 26 inch Grand River Steelhead

Fished the **Grand River** today with Brad Hinline. Brad caught a **26 inch steelhead casting a spinner** as we were trolling within a half hour after we started. More trolling and casting did not produce so we checked some **other spots out up river**. On one casting spot we hooked and released **12 flathead catfish** that ranged **from 5 to around 25 pounds**. What a workout! It is not very often that I hear complaints about **aching wrists** after catching too many big fish! Another spot produced a 16 inch smallmouth, a pike, and a drum. Those who can should **take advantage of this great fall fishing weather**.

25 pound Flathead Catfish from the Grand River
