

## LUNKER HUNTER SPOONPLUGGERS MEETING JANUARY 4, 2007

### “USING COMPUTERS FOR INFORMATION”

Terry Velting spoke about “Using Computers to Increase Fishing Knowledge”. He said the most important thing is to **know where to get the best information**. He **recommended several websites to check out**. Try looking for them on Google.

- [WMWC.net](http://WMWC.net)---has walleye info on its' homepage
- [Rocketman Musky Club](http://Rocketman Musky Club)---Has some good posts on Lake St Clair and the Detroit River muskies
- [greatmich.com](http://greatmich.com)---has many posts on their discussion page and good fishing reports
- [greatlakescam.com](http://greatlakescam.com)---access to current video cams of Lake Michigan ports
- [wotv.com](http://wotv.com)---The weather page shows cams of Holland and Grand Haven piers
- [michigan.gov/dnr](http://michigan.gov/dnr)---has inland lake maps, stocking records, boat access sites, and much more
- [mssf.com](http://mssf.com)---The Michigan Steelhead and Salmon Fishermans Association has several good links
- [spoonplugger.net](http://spoonplugger.net)---a great forum for information, hosted by some top Spoonpluggers
- [buckperry.com](http://buckperry.com)---The official web site for Spoonplugging with introductory Spoonplugging articles, site to order Spoonplugging equipment online, and instructor information.
- [nauticalcharts.com](http://nauticalcharts.com)---a site where top fishing and navigational charts can be purchased
- [mucc.org](http://mucc.org)---a good lake map site, some with more detail than DNR maps
- [walleyecentral.com](http://walleyecentral.com)---info, links, articles, and forum on walleye
- [americantackle.com](http://americantackle.com)---their discussion board is very good and up to date, although fishing reports can be old

Many thanks to Terry for getting all this information for us. **Winter is a good time to check these sites out!**

Chase Klinesteker

## LUNKER HUNTER SPOONPLUGGERS MEETING SEPTEMBER 6, 2012

### “COMPUTER INFO. UPDATE”

Cal Lamoreaux presented the program titled “Computer Resources for Fishing”, which gave us many good ideas to enhance our fishing information. He **uses “Microsoft Streets and Trips”** and “**Google Maps**” a lot. He brought his computer and hooked it up to the big screen and prepared the program very well, despite the fact that he **couldn't get an Internet connection**. He used the **Earthview form of Google Maps** to show Wolf Lake in Muskegon County where **you can see the lake from angles or ground level**, even pictures from the highway or bridges. The **USGS site** gives accurate **information of stream flow and water level** for local rivers like the Grand. The **NOAA Coastwatch** site has good information on **water temperatures, wave height, and cloud cover of Lake Michigan** and can be a big help for **salmon and perch** fishermen there. **Nautical charts** can also be obtained there. The **Michigan DNR site** is also very good ([michigan.gov/dnr](http://michigan.gov/dnr)). It has **contour maps** of most

inland lakes in Michigan, detailed **launch site information, and fishing information** on species etc. Many thanks, Cal, for a very informative program!
