

## Normal Line Lengths for Spoonplugs

### NoBo Lengths

	Series	Depth	Layers	Length
500	Shallow	2 to 4 Feet	8 to 10	15 to 20 Yards
400	Shallow	4 to 6 Feet	8 to 10	15 to 20 Yards
250	Shallow	6 to 8 Feet	8 to 10	15 to 20 Yards
200	Medium	9 to 12 Feet	14 to 16	35 to 40 Yards
100	Medium	12 to 15 Feet	14 to 16	35 to 40 Yards
700	Deep	15 to 20 Feet	18 to 22	50 to 60 Yards
800	Deep	20 to 25 Feet	18 to 22	50 to 60 Yards

### Wire Line (Normal Situations)

By fishing with wire line you will double the maximum running depth of each lure using the suggested line length hand rule for NoBo. Then, by simply adding extra line layers of wire you can reach additional depths for each line.

Here is an approximate hand rule for wire:

**\*\*The 500 and the 400 Series lures are NEVER used in association with wire line.\*\***

Series	Depth	Layers
250	18 to 25 Feet	14 to 20
200	25 to 30 Feet	16 to 20
100	30 to 35 Feet	16 to 20
700	35 to 45 Feet	18 to 24
800	45 to 60 Feet	20 to 28

This is hand rule will get you close.....

In the final analysis ask yourself the basic question:

“Am I bumping? If not, dump ‘til you bump!
